Property	Typical Value	Unit	Method ¹
Total Solid Content	60 ± 1	%	
Viscosity @ 25 °C	150 - 300	Stokes	
Colour	6 max	Gardner	
Acid Value	10	mg KOH/ gm solids	
Clarity	Clear and free from particles		

¹ internal method based upon the specified norm

Application Advice

Typically used to formulate farm vehicle, truck and transport coatings.

Shipping and Storage

To ensure maximum stability and optimum resin properties, resin should be stored in closed containers at temperature below 32 °C and away from heat sources and sunlight. All storage should conform to local fire and building codes. Drums should be stored away from all sources of flame or combustion. When properly stored, resin will remain stable for 12 months from the date of production.

Product Safety

Before handling, please read the Safety Data Sheet of this product for advice on safety, use and disposal.
