Property	Typical Value	Unit	Method ¹
Solids	51	%	
Viscosity (RTV #3 @ 20rpm)	1,000	cP	
pH	7.0		

¹ internal method based upon the specified norm

Application Advice

Plextol Prime 7520 has excellent anchorage to a variety of facestocks for various tape applications.

Key Features

- Strong balance of adhesion and shear properties
- Readily wets most liners
- Excellent chemical resistance
- Coater ready formulation for slot die, curtain and reverse roll coating methods

Shipping and Storage

Store at an even temperature of between +5°C and +35°C avoiding frost and direct sunlight. Stir product before use. If stored according to these conditions and in the original unopened containers, the dispersion will be stable for 6 months following delivery. Product should be used as soon as possible after opening. During processing, storage and transport, avoid any contact with metals (including non-ferrous metals) which are not protected against corrosion. Detailed information is available on request.

Product Safety

Before handling, please read the Safety Data Sheet of this product for advice on safety, use and disposal.
