Property	Typical Value	Unit	Method ¹
Chemistry Type	Polyphenol		
Soluble In	Aromatics		
Soluble In	Ketones		
Soluble In	Isopropyl Alcohol		
Average Molecular Weight	650	g/mol	
Physical Form	Powder		
Discoloration	No		
Average Particle Size	10	µm	
Specific Gravity	1.1		
Melting Point	115	°C	
Gardner Color	1,0		

¹ internal method based upon the specified norm

Key Advantages

- Highly effective polyphenolic antioxidant
- Low volatility, non-discoloring, nonpink

Application Advice

Antioxidant: Natural and Synthetic Rubbers and Plastics, Rubber Tapes and Labels

Shipping and Storage

Available Packaging :

Other

Handling :

- Do not handle near an open flame, heat or other sources of ignition.
- Adequate ventilation should be maintained in the processing areas.
- Fine powders may cause irritation to the respiratory system if inhaled.

Recommended Storage Conditions :

- Do not store near an open flame, heat or other sources of ignition.
- Do not expose product or container to direct sunlight or to freezing temperatures.
- Store in a dry, well ventilated area.

Shelf Life :

36 Months (when stored as recommended)

Product Safety

Before handling, please read the Safety Data Sheet of this product for advice on safety, use and disposal.
